

AirScape®

CUSTOM GRILLES

AirScape® Custom Grilles are available in both flat and flanged variants. Flanged grilles feature increased stiffness and a 5/8" deep flange that sits within the rough opening the grille will cover. Both variants excel in a wide range of interior and exterior applications in residential, commercial, industrial, educational, and healthcare settings.

FLAT GRILLE DETAILS

- Robust .125" Aluminum construction in 20 patterns and 5 finishes
- Available dimensions: 6"-48" length, 4"-48" height, each in 1/8" increments
- Custom perforation spacing available from 1/10" to 1" vertically and horizontally, in 1/20" increments
- Up to 8 screw holes in each side

FLANGED GRILLE DETAILS

- Durable 16 Ga. Galvanized Steel construction in 20 patterns and 4 finishes
- Available to fit rough openings from 6"-54" length, 4"-48" height, each in 1/8" increments
- The exterior dimensions of these grilles extend 1 3/4" beyond the rough opening dimensions
- Flange is undercut by 1/4" to ensure a great fit and extends 5/8" into the rough opening

HASSLE-FREE ONLINE ORDERING

Use our online Grille Builder to design a custom grille that perfectly suits your needs. This easy to use tool clearly displays your design's price, and updates it in real time as changes are made. Choose any of over 4 trillion combinations of patterns, dimensions, and finishes.
